ONE SIDED BALL GAME

Won by Christians Who Go To Second Place in S. S. League Standing

Played Won Lost P. C. Baptists 3 2 1 .667 Christians 4 2 2 .500 Meth-lyterians 3 1 2 .333

The Christian Sunday school hall team nosed the Meth-lyterians out of second place in the Sunday School League of Stanford on Thursday afternoon in a rather one-sided game by a score of 14 to 3. The top-sided score was very largely due to the fact that several of the Meth-lyterian nine's best players were out of the game and substitutes had to take their places, several of whom had not played base ball for many years. The Christians all slugged the ball hard for a total of 18 hits during the game. The feature of their opponent's play was the hitting and base running of Harris Coleman. Considerable good-natured rivalry has been engendered among the boys and good crowds are always present rooting for their favorites. The Baptists play the Meth-lyterians next Monday and after that the Baptists and Christians will hook up again on Thursday following.

This is the "Thornhill" Wagon— the Wagon that Must Make Good

The best known materials—the labor of master workmen—the aid of the most ingenious modern machinery have been employed to make the Thornhill wagon.

The wheels are made with excessive care. For the spokes the manufacturers use the finest hickory—machine driven to insure the right dish. The hubs are of oak, thoroughly seasoned and banded with double refined sable iron.

The bolsters are of the best white oak. They have an iron plate at top and bottom, riveted through and through—multiplying their strength.

The "Thornhill" has a malleable front hound plate that is braced to the hounds at all points. This is an exclusive "Thornhill" feature. It prevents the

gears from ever getting out of line and causing hard pulling.

"Thornhill" wagons are equipped with long sleeve malleable—non-breakable skeins that insure light running, and outlast any other skein. Each skein is fitted to its axle with a Defiance machine—infallibly accurate. This machine insures the right pitch and tuck, makes light draft a certainty.

The axles are of toughest hickory—the steel axles of the best refined steel.

The sides of "Thornhill" beds are made of poplar. It costs the makers more—but it holds paint better and gives better service.

Come in and see this wagon—sold under a binding guarantee.
